ACTIVE SERUM™
 3.8 pH +/- 0.5

ANTI-AGING, ANTI-ACNEIC, BRIGHTENING

BENEFITS

- Helps reduce fine lines and wrinkles
- Helps treat acne
- Helps correct hyperpigmentation
- Provides rapid and long-term improvements
- Smooths and softens skin texture
- Helps reduce pore size
- Increases collagen synthesis
- Paraben-free

COMMENTS

Our most popular product, this fast-acting, long-term, results-oriented formula decreases the appearance of fine lines and wrinkles, evens skin tone, and is excellent for acne. Touted by physicians as “remarkable” and “phenomenal,” ACTIVE SERUM™ usually produces results within a couple of days. Potent activity is noted upon application, as evidenced by a cool tingling sensation indicating penetration. Excellent for all skin types and all ages, this powerful botanical serum does not dry the skin. Instead, it leaves skin moist and smooth.

If we could recommend only one product from our skincare line, ACTIVE SERUM™ would be the one. It works impressively by itself or as part of any skincare regime. Peeling rarely occurs (although it is not abnormal), as this product produces controlled exfoliation.

INDICATIONS

- Normal, dry, oily, or combination skin
- Acne-prone skin
- Uneven pigmentation (including melasma/chloasma)
- Large and/or congested pores
- Rough skin texture
- Microdermabrasion/dermaplaning (helps loosen the stratum corneum)
- Pre-procedure (use 30 days prior)

INCLUDED IN REGIMES AND PROTOCOLS
ACNE (ALL)
ANTI-AGING (ALL)
FOR MEN
HYPERPIGMENTATION (ADVANCED)
INTERACTIVE EXPERIENCE FACIAL

DESCRIPTION Lightweight clear–light-yellow serum.

INGREDIENT FEATURES

KEY INGREDIENTS	DESCRIPTION
SACCHARUM OFFICINARUM (SUGARCANE) EXTRACT (Source of Glycolic Acid) 8.0%	Desquamation agent that encourages the exfoliation of the stratum corneum.
VACCINIUM MYRTILLUS (BILBERRY) FRUIT/LEAF EXTRACT (Source of Lactic Acid) 2.0%	Desquamation agent with moisturizing properties; enhances exfoliation of the stratum corneum without dehydrating the skin.
SALIX ALBA (WHITE WILLOW) BARK EXTRACT (Source of Salicylic Acid) 2.0%	Encourages desquamation by “dissolving” intracellular “cement” with no inflammatory effects. Also deep-cleans pores and removes debris within hair follicles.
ARBUTIN 1.0%	Inhibits tyrosinase, the enzyme that produces melanin, thereby controlling hyperpigmentation.
POLYPORUS UMBELLATUS (MUSHROOM) EXTRACT (Source of Kojic Acid) 0.5%	Inhibits tyrosinase, the enzyme that produces melanin, thereby controlling hyperpigmentation. Also exhibits powerful antibacterial, antimicrobial, and antibiotic properties.

INGREDIENTS

Water/Aqua/Eau, Glycerin, Glyceryl Polyacrylate, Butylene Glycol, Alcohol Denat., Saccharum Officinarum (Sugarcane) Extract (Extrait de Canne à Sucre), Vaccinium Myrtillus (Bilberry) Fruit/Leaf Extract, Triethanolamine, Salix Alba (White Willow) Bark Extract, Arbutin, Polyporus Umbellatus (Mushroom) Extract, Menthol, Phenoxyethanol.

CAUTIONS

For external use only. Avoid immediate eye area and/or contact with eyes. Slight tearing may occur if applied too close to the eye. Slight peeling may occur in some cases. If peeling is excessive, reduce dosage. If condition persists, discontinue use. Store in a cool place.
