# treat YOUTH EYE™ COMPLEX

5.0 pH +/- 0.5

RETAIL
SIZE
15 g e net wt. 0.5 oz.
DOSAGE
1/2 pump per application

RAPIDLY SMOOTHS AND HYDRATES,  
REDUCES PUFFINESS AND DARK CIRCLES

### BENEFITS

- Provides penetrating hydration
- Reduces periorbital fine lines and wrinkles (including crow's feet)
- Provides immediate and long-term improvements
- Improves firmness and elasticity
- Provides antioxidant protection
- Helps lighten dark under-eye circles
- Excellent for lip area
- Paraben-free

### COMMENTS

YOUTH EYE™ COMPLEX combines powerful peptides, key growth factors, and potent antioxidants to rapidly reduce wrinkles, puffiness, and dark circles under the eye areas. This innovative formula features “intelligent” proteins clinically proven to target and regenerate damaged sites. Dermal structure is strengthened, and the formation of collagen is encouraged, resulting in skin that is stronger and better equipped to resist damage.

### RESULTS

**IMMEDIATE** Instant smoothing and plumping of fine lines and wrinkles occurs in the eye area. Skin appears less puffy, less distended, and more hydrated.

**LONG-TERM** Increased and continued collagen and elastin synthesis rebuilds and strengthens the dermal structure, resulting in continued reduction of pronounced wrinkles. Dark under-eye circles become less visible by the inhibition of melanin synthesis and the strengthening of delicate skin

### INDICATIONS

- Periorbital fine lines and wrinkles (including crow's feet)
- Thin, “crepey” skin
- Dark under-eye circles
- Pre- and post-procedure

INCLUDED IN REGIMES AND PROTOCOLS	
ACNE (ADVANCED)	ANTI-AGING (ADVANCED)
HYPERPIGMENTATION (ADVANCED)	DARK CIRCLES
EXFOLIATING CLEAR SKIN FACIAL	FOAMING ENZYME TREATMENT FACIAL
HONEY ENZYME FACIAL	INNOVATIVE (FIRE & ICE) FACIAL
EYE BRIGHT	iS CANCER CARE™ (including HARMONY FACIAL)

treat

## YOUTH EYE™ COMPLEX

5.0 pH +/- 0.5

treat

DESCRIPTION Medium-viscosity white-off-white opaque cream.

## INGREDIENT FEATURES

KEY INGREDIENTS	DESCRIPTION
SODIUM HYALURONATE (Hyaluronic Acid—Botanically Derived) 15.0%	Humectant; demonstrates hydrophilic properties—attracts and binds up to 1800 times its molecular weight in water.
ACETYL OCTAPEPTIDE-3 5.0%	Reduces expression wrinkles by neuromuscular mediation.
HYALURONIC ACID MICROSPHERES (Botanically Derived) 3.0%	Pure hyaluronic acid that has been cross-linked, dehydrated, and encapsulated into microspheres. Combined with water in the epidermis, the microspheres act like tiny sponges, absorbing and expanding, filling in wrinkles.
PSEUDOALTEROMONAS FERMENT EXTRACT 3.0%	Encourages collagen synthesis and protects collagen via metalloproteinase effects. Strengthens dermis for less puffiness.
HYDROLYZED WHEAT PROTEIN AND HYDROLYZED SOY PROTEIN 3.0%	Proteins boost collagen synthesis, standardize fibril diameter and spacing, and inhibit enzymatic destruction.
COPPER TRIPEPTIDE GROWTH FACTOR (Bioidentical)	Copper tripeptide-1 (bioidentical) has been clinically proven to stimulate the synthesis of collagen in skin fibroblasts and increase accumulation of total proteins, glycosaminoglycans (in a biphasic curve), and DNA in dermal wounds. The copper tripeptide-1 sequence is present in collagen, and it is suggested that the copper tripeptide-1 is released after tissue injury. <sup>1</sup> Copper tripeptide-1 also increases synthesis of decorin: a small proteoglycan in the regulation of collagen synthesis, in wound-healing regulation, and in antitumor defense. <sup>2</sup>
GLYCOSAMINOGLYCANS 2.0%	GAGs stabilize and maintain the healthy molecular geometry of collagen, increasing skin firmness, elasticity, and resistance to stress and sagging.
ASIATICOSIDE, ASIATIC ACID, AND MADECASSIC ACID (Sourced from Centella Asiatica) 0.10%	Efficacious antioxidants that stimulate collagen synthesis and improve microcirculation, capillary flow, and vascular tone, to promote wound healing and reduction of scar tissue.
RETINYL PALMITATE (Vitamin A) TOCOPHERYL ACETATE (Vitamin E) ASCORBYL PALMITATE (Vitamin C) PANTOTHENIC ACID (Vitamin B5) 0.10%	Provitamins necessary for healthy skin metabolic function, to help lighten dark under-eye circles.
DIPOTASSIUM GLYCYRRHIZATE 0.10%	Antioxidant that possesses anti-inflammatory, anti-irritant, and wound-healing properties.

## INGREDIENTS

Water/Aqua/Eau, Sodium Hyaluronate, Caprylic/Capric Triglyceride, Glycerin, Acetyl Octapeptide-3, Glyceryl Dilaurate, Pseudoalteromonas Ferment Extract, Hydrolyzed Wheat Protein, Hydrolyzed Soy Protein, Tripeptide-10, Citrulline, Tripeptide-1, Lecithin, Silica Dimethyl Silylate, Dimethicone, Cetyl Alcohol, Cetearyl Alcohol, Cetareth-20, Glyceryl Stearate, PEG-100 Stearate, Glycosaminoglycans, Urea, Glucose, Guanidine HCl, Dipalmitoyl Hydroxyproline, Panthenol, Asiaticoside, Asiatic Acid, Madecassic Acid, Phospholipids, Retinyl Palmitate, Tocopheryl Acetate, Ascorbyl Palmitate, Pantothenic Acid, Dipotassium Glycyrrhizate, Butylene Glycol, Xanthan Gum, Carbomer, Triethanolamine, PVP, Ethylhexyl Palmitate, Disodium EDTA, 1,2-Hexanediol, Caprylyl Glycol.

CAUTIONS For external use only. Avoid contact with eyes. Store in a cool place.
